

Welcome to Compass Home Portfolio!

A simple guide to getting the most from your portfolio.

Welcome

Owning a home is one of life's biggest milestones—and one of its biggest responsibilities.

It comes with paperwork, maintenance, decisions, and questions that don't end when the closing papers are signed.

That's why I created **Compass Home Portfolio™**.

The goal is simple.

Give your home the owner's manual it should come with.

This portfolio is designed to help you organize, maintain, improve, and better understand your home—one Compass Page at a time.

A Personal Note

When I started Bastien Mortgage, I made myself one promise:

I didn't want my relationship with clients to end at the closing table.

My hope is that this portfolio becomes something you reach for over the years whenever you need it.

If you ever have a question about your home or your mortgage, I'm only a phone call away. 616 369 0021

Warm regards,

Joe Bastien
