

Payment Calculator - Monthly payment per \$1000 of loan amount

Want to calculate a monthly payment using the calculator app you already have on your phone? Look no further! The table below provides everything you need. The payment indicated represents the monthly amount you'll pay for each \$1,000 of the loan amount. You can easily calculate your monthly payment using the formula:

Loan amount÷1000×Payment from the table=Monthly payment*\text{Loan amount} \div 1000 \times \text{Payment from the table} = \text{Monthly payment}^*Loan amount÷1000×Payment from the table=Monthly payment*

Note: The calculated payment includes only the principal and interest. Additional costs such as property taxes, homeowners' insurance, mortgage insurance, and homeowners' association dues are not included.

By analyzing these numbers, you can also determine how much extra you need to pay to shorten your loan term or counteract the effects of an interest rate increase. Payment Calculator – Monthly Payment Per \$1,000 of Loan Amount

Note Rate	30-Year	20-Year	15-Year
4.500%	\$5.067	\$6.326	\$7.650
